

Report on Interno Fusion Limited

Company Overview

Interno Fusion Limited is an Indian modular furniture and interior solutions company specializing in customized furniture manufacturing for residential, hospitality, commercial, retail, and institutional projects. The company operates from Manesar, Haryana, and focuses on delivering premium modular kitchens, wardrobes, furniture systems, and turnkey interior solutions.

The business originally operated under the “Fusion Kitchen” brand and later expanded into a larger integrated manufacturing company under the name Interno Fusion Limited in 2024.

Business Model

Core Business Segments

1. Modular Furniture Manufacturing

The company designs and manufactures:

- Modular kitchens
- Wardrobes
- Residential furniture
- Commercial furniture
- Contract furniture
- Customized storage systems

These products are manufactured according to client specifications and project requirements.

2. Turnkey Interior Solutions

Interno Fusion provides end-to-end services including:

- Design consultation
- Space planning

- Furniture manufacturing
- Installation
- After-sales support

The company handles projects for:

- Hotels
- Homes
- Offices
- Educational institutions
- Retail spaces

3. OEM & Bulk Manufacturing

Interno Fusion also manufactures furniture products for:

- Showroom partners
- Real estate projects
- Institutional buyers
- OEM brands

The company's large-scale manufacturing capability allows it to support mass production requirements.

Work Process of Interno Fusion

Step 1 – Requirement Analysis

The process starts with understanding:

- Client needs
- Space dimensions
- Design preferences
- Budget expectations

- Functional requirements

The design team prepares conceptual layouts and customized furniture plans.

Step 2 – Design & Visualization

The company develops:

- 2D layouts
- 3D visualizations
- Material selection plans
- Finish and color combinations

Interno Fusion focuses heavily on design innovation and customized aesthetics.

Step 3 – Manufacturing

Production is carried out in-house using:

- Automated machinery
- Precision cutting systems
- Modular fabrication technology
- Glass and board processing units

The company claims to operate one of the rare Indian furniture factories producing most components internally.

Step 4 – Quality Control

Before dispatch:

- Each product undergoes quality inspection
- Finish and dimensional accuracy are checked
- Hardware fittings are tested

- Durability and installation readiness are verified

The company also mentions ISO-certified processes and sustainability initiatives.

Step 5 – Delivery & Installation

The installation team performs:

- Site coordination
- Product assembly
- Final fitting
- Finishing corrections

The company provides after-sales support for maintenance and service.

Market Position

Interno Fusion is positioning itself as a growing premium modular furniture and interior manufacturing brand in India with expansion potential in organized furniture manufacturing and contract furnishing projects.

Conclusion

Interno Fusion Limited operates as a vertically integrated modular furniture and interior solutions company serving residential, hospitality, commercial, and institutional markets. Its business model combines design, manufacturing, customization, installation, and after-sales support under one operational structure.

The company's major strengths include:

- Large-scale manufacturing
- Custom modular production
- Multi-industry project execution
- Sustainability-focused operations
- Growing showroom and dealer presence across India

With increasing demand for organized modular furniture solutions in India, Interno Fusion appears positioned for expansion in both retail and project-based furniture markets.
